## EDITO

We had a dream of enabling people to scuba dive in one of the most wonderful scuba diving places in the world. And now - here we are!

Dragon Dive Komodo has been created by passionate people with a common goal to ensure that all guests find what they are looking for with us from safe, fun diving in the underwater world to exceptional hostel accommodation - all combined in one place -

Dragon Dive Komodo!

It took some time, as all great things do, but after 10 years of experience we were ready to open a scuba diving resort with ultra-competent, experienced and professional staff in Komodo National Park, one of the world's best places for scuba diving.

The story of Dragon Dive Komodo is unique and quite unusual. The two owners were coworkers in Indonesia and after visiting Labuan Bajo and diving around Komodo, decided to launch a new Dive Resort with comfortable rooms, the only ultra-big swimming pool in town for chilling (we didn't want an aquarium...), and of course the best ways to experience the world class scuba diving offered in Komodo through daily and "Liveaboard" dive boats.

With our passion for protecting the environment we created an Eco Dive Resort with bio septic tank, tropical garden, policies to reduce paper and plastic waste no chemical fragrances and choosing organic soap and shampoo. This alongside non-smoking rooms allows us to play our part in reducing pollution and preserving the precious Komodo National Park.

We have two management structures; the Operational on site in Labuan Bajo with guest relationship management, services and scuba diving activities. All of the people you will meet there are on the Operational structure.

The second one is general administration including general law and regulation, Finance, HR, Insurance, Marketing and Tour Operation.

We wish you a pleasant stay with us,

See you there,

Manu & William (Owners)
